# SANITARY REVIEW FORM

Pursuant to Wisconsin Administrative Code COMM 83.25(2), a municipality may not issue a building permit for construction of any structure or addition to any structure on a site where there exists a Privately Owned Wastewater Treatment System (septic system), unless the proposed construction conforms to the applicable setback limitations set forth under COMM 83.43(8)(i). The applicant for a building permit shall provide documentation to the municipality issuing the building permit showing the location and setback (separation) distances for the proposed construction relative to the components (septic tank, drain/seepage field, etc.) of the existing septic system. Please complete the following form and also submit the required information to the Dodge County Planning and Development Department for review. A determination will be made on whether your proposed construction project is in compliance with the sanitary requirements set forth in COMM 83.25(2). If you have any questions, feel free to contact our office. Phone: (920) 386-3700
